Education

Seoul National University, B.S. degree expected in Nursing   Mar 2019 – Present

Experience

Undergraduate Research Intern   Jun 2025 – Present
- Human-Centered Artificial Intelligence Lab (HCAIL), Seoul National University
- Supervisor: *Prof. Hyunggu Jung*

Undergraduate Research Intern   Jan 2025 – Jun 2025
- Medical AI Imaging Lab, Seoul National University
- Supervisor: Prof. Namjoon Kim

Undergraduate Research Intern   Sep 2024 – Dec 2024
- Developmental Cognitive Neuroscience Lab, Seoul National University
- Supervisor: Prof. Sangah Lee

Publications

Projects

CEUS-based Liver Tumor Classification   Jan 2025 – Present
- Assisted with experiments on contrast-enhanced ultrasound (CEUS) data using two deep learning models for liver tumor classification; analyzed padding strategies and performed statistical analysis.

Language Development and Event Boundaries in Children's Episodic Memory   Sep 2024 – Dec 2024
- Led a study on language development and episodic memory in children; transcribed free recall data and applied NLP and cosine similarity. Received Best Poster Award at the SNU BMB Undergraduate Research Conference.
